

US Patent # 7,182,695

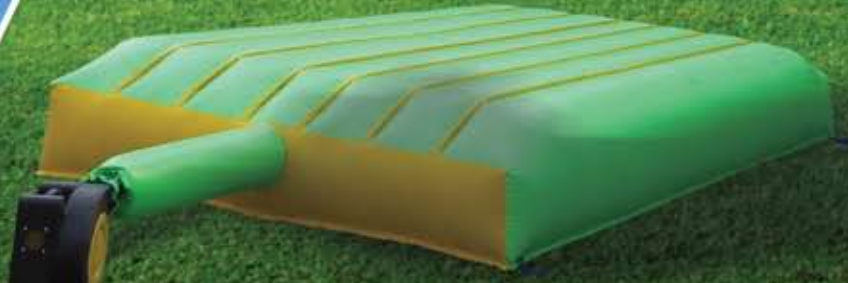

Soar up to 18 feet on the Extreme Air™ stationary jumper system! Using our patented fiberglass pole technology jumpers can glide freely through the air. The jumper system is perfect for outdoor or indoor facilities with 20 foot ceilings! Only a single operator needed. The Extreme Air™ can easily be bolted to the floor and powered by 110 volts.

Only \$8,945!
Price includes free delivery in the Continental US.
